LASER MARKING

Combining the skill and techniques of a highly qualified team of laser hallmarking experts with the very latest laser technology, we specialise in laser marking across a wide range of products.

Be it a corporate event, sporting event or a personal event such as wedding or christening, a personalised laser mark is a lasting reminder of an occasion or achievement. A personalised message turns any product into a special gift.

LASER HALLMARKING

Two styles of laser mark are available – an outline or incuse mark and a relief mark. The outline laser mark is useful for marking hollow, finished or intricate jewellery products when a punch mark is undesirable.

The relief laser mark is suitable for finished or semi-finished products and gives the appearance of a traditional struck mark, without any bruising or distortion at precisely the required size, position and depth.

Prices and quotations are available on request for both hallmarking and non-hallmarking applications.

For further information about our Laser marking services, please contact Julie Burns or Suki Singh on **0871 871 6020** or by email gem@theassayoffice.co.uk
